## Understanding the Basic Solid Granny Square

The solid granny square is constructed using a simple repeating pattern of double crochets and chain stitches. It begins with a magic ring, which is essentially a slip knot that is worked into a circle. From there, the square is built row by row, with each row consisting of a series of clusters of double crochets separated by chain stitches. The result is a sturdy, square-shaped crochet motif that can be used in a wide range of projects.
