"Misfit Toys" is set in a grimy, desolate world where broken and abandoned toys come to life. These toys are not the cuddly companions of our youth; they are hardened survivors, scarred by their experiences and driven by a primal desire for survival.

Among these misfits are:

- **Goldie:** A teddy bear with a missing eye and a penchant for violence.
- **Sticks:** A wooden doll with a twisted sense of humor and a dark past.
- **Whiskers:** A rat that wears a tiny top hat and wields a sharp knife.
- **Blue:** A bluebird with broken wings and a heartbroken spirit.

These toys form an unlikely alliance, banding together to protect themselves from the dangers that lurk in their shattered world. But as they face threats from both humans and other toys, their bonds are tested and their true natures are revealed.
